VIDEO INTERCOM 4G CELLULAR

CellVid 4G

- Cellular video intercom.
- Based on the already popular BFT wifi intercom.
- Make video calls to Apple and Android devices.
- Includes 4G modem for stand alone, cellular connection to internet.
- Open gates from anywhere in the world (data or wifi connection required).
- Works with At&T and T-Mobile (At&T preferred).
- Low data use (approx 80 visitor calls per ½ Gig of Data).
- Keypad option for pin code access.
