SAFE USE

- This version powered at 24V has been specifically designed for simpler and faster installation in compliance with the latest UL 325-2016 safety standards.
- The 24 V electrical motor guarantees maximum accuracy in torque and speed control on the one hand, and on the other makes it suitable for intensive gate use, even in industrial installations. Optional battery back-up can be fitted within the operator casing. These operators are all "Ecosol" solar compatible.
- Contains obstruction sensing device, the operator reverses motion and prevents damage to people and vehicles in the event of contact.
